

# How To Access Google Classroom At Home

## Step 1:

Type "my school" into google.

Internet explorer seems to work better than google chrome for this.

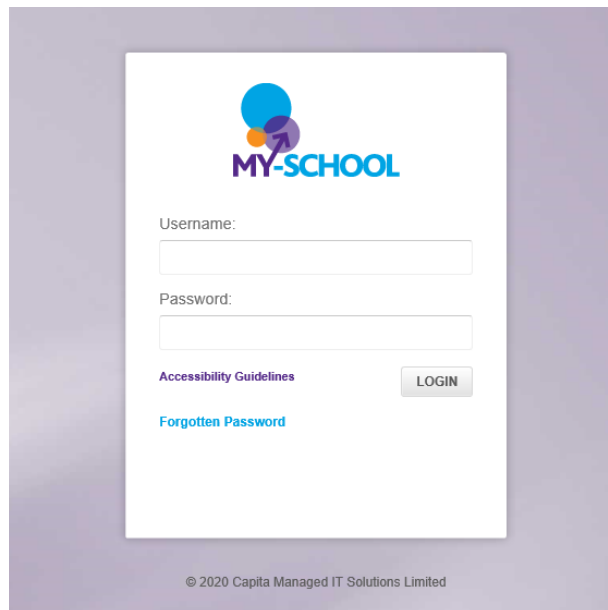

## Step 2:

Type in your username and password.

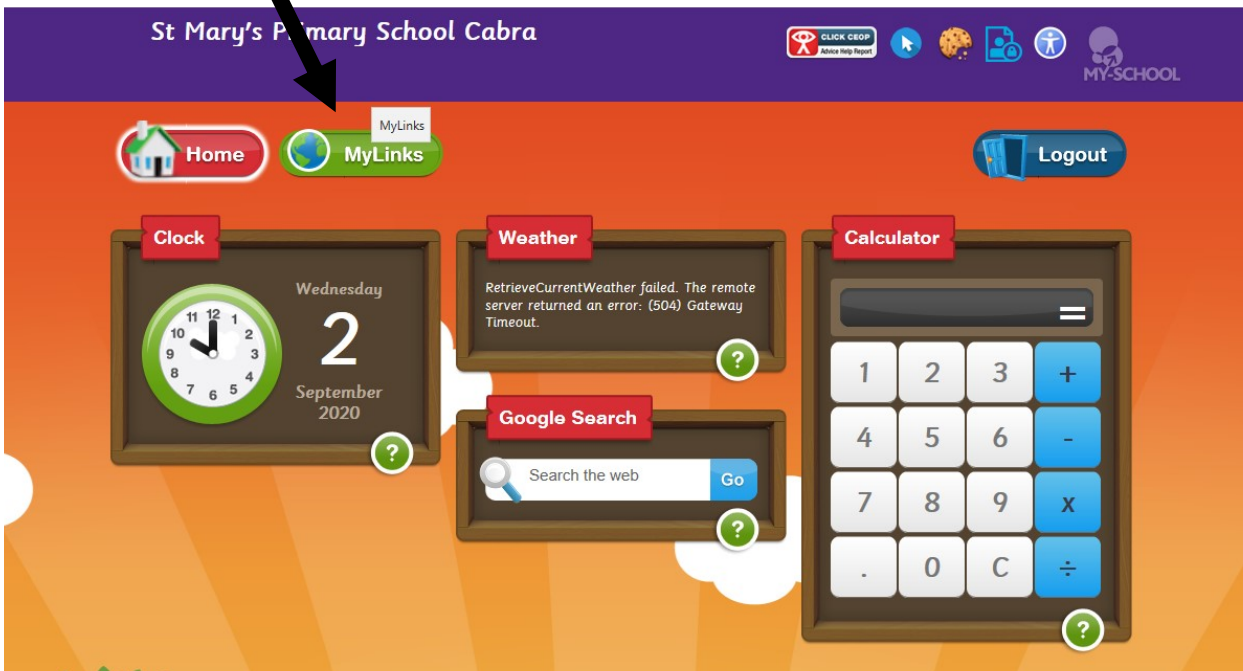

This will be the same username and password that you use to log into the school computer.

Teachers will put this into children's homework books.

Step 3:

Click on "MyLinks".

Step 4:

Click on Google Classroom.

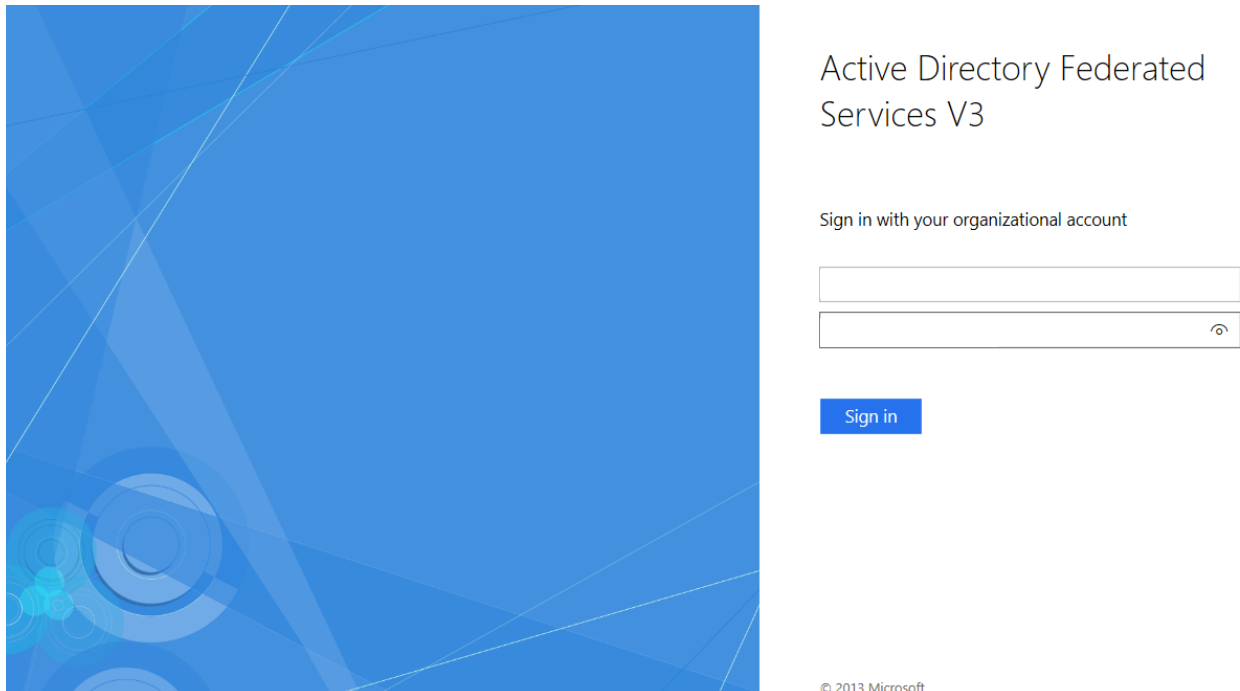

## Step 5:

Add your **email address** and password.

Your email address is your username along with **@c2ken.net**

Again, your password is the same one you use to log into the school computer.

## Step 6:

Click into your class.

Work will be set in the "classwork" area and updates will be given on the "stream" page.

Navigate around your google classroom. Ask your teacher if you need help with how to use it.
